

## Udemy and Mila Partner to Empower the Global Workforce with Responsible AI Skills

December 9, 2025

*New collaboration equips teams with the practical skills, ethical frameworks, and governance tools needed to keep pace with rapid innovation.*

SAN FRANCISCO--(BUSINESS WIRE)--Dec. 9, 2025-- [Udemy](#) (Nasdaq: UDMY), an AI-powered skills acceleration platform serving 82 million learners and over 17,000 organizations globally, and [Mila](#), one of the world's leading AI research institutes founded by Turing Award winner Yoshua Bengio, today announced a new partnership to accelerate responsible AI skill development for the global workforce. Together, Udemy and Mila will build scalable AI learning programs that help organizations not only adopt AI technologies but also apply them responsibly, ethically, and in alignment with long-term business and societal goals.

Beginning in January, Udemy and Mila will progressively launch new responsible AI learning programs that combine Udemy's global scale with Mila's leadership in responsible AI research and policy. Developed by Mila and delivered through the Udemy platform, these solutions blend technical fluency with strategic and ethical decision-making, and are designed to meet organizations wherever they are in their AI journey.

"At Udemy, we see firsthand how urgently teams need AI skills that go beyond tool training," said Hugo Sarrazin, President and CEO at Udemy. "Partnering with Mila enables us to equip organizations with the practical skills and responsible AI frameworks they need to adopt AI safely, strategically, and at scale. This collaboration reflects our shared mission to help the global workforce thrive in this new and rapidly accelerating era."

"This partnership builds on Mila's growing efforts to strengthen responsible AI awareness, literacy, and capacity across all sectors," said Valérie Pisano, President and CEO at Mila. "Through our collaboration with Udemy, we are able to offer a global audience learning opportunities that develop not only technical capability, but also the ethical guidance, governance frameworks, and critical thinking skills needed to deploy AI in ways that enhance productivity, competitiveness, and inclusive growth."

With this partnership, professionals and organizations will gain access to:

- Courses on Responsible AI, ethics, governance, and practical decision-making
- Applied training on integrating responsible practices into professional workflows
- Insights from Mila researchers on emerging trends and the future of responsible AI
- Flexible learning formats, including on-demand content, expert-led sessions, and cohort-based programs for enterprise teams

Together, these offerings equip teams across industries, roles, and regions to implement AI in ways that are practical, ethical, and sustainable —empowering a future-ready workforce with the skills, judgment, and accountability needed to lead in an AI-powered world.
